

Awareness USA is committed to educating and empowering underprivileged students

Awareness USA is a 501(c)(3) non-profit based in Tampa, FL. We believe education is the mother of all socio-economic progress in the world.

Awareness USA offers a four-point program:

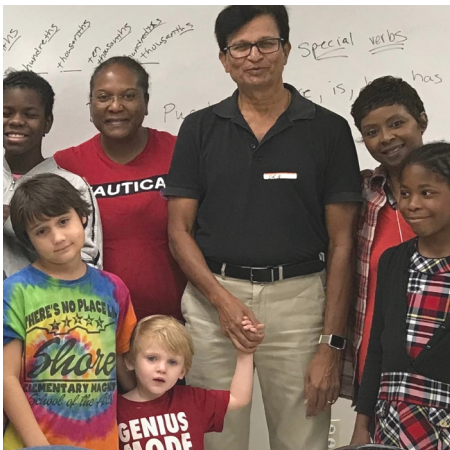

America is the most prosperous nation in the world, but 12 million children fall below the poverty line. Poverty hampers education, health, and social skill development and correlates with higher mental illness, drug abuse, violence, and generational poverty. For our country to remain intellectually competitive and flourish, every disadvantaged child should be given the tools and the opportunity to become responsible citizens, productive workers, and a happy, fulfilled individual.

1. Realizing the American Dream: The first step in making upward social mobility is believing that you can! Our program offers tools for students to achieve academic success and prepare for college.

2. Healthy Diet and Nutrition: Childhood obesity is a national epidemic, and AUSA believes that through health education, we can motivate students to eat right, participate in physical activities, and exercise.

3. Environmental Stewardship: Members of Awareness USA are keenly aware of the adverse effects of industrialization, deforestation, climate change, and pollution on the environment. We encourage students to participate in activities to protect the planet.

4. Social responsibility: AUSA promotes helpfulness and social harmony for the common good. We teach honesty, integrity, respect, and trust because at AUSA, our ethos is to treat others as you wish to be treated. We urge the students to say no to drugs, alcohol, guns, and violence to create safe and secure communities.
